NOTICE TO RETAILERS

If wine and/or distilled spirits have been delivered to a retail licensee by a wholesaler or manufacturer on or before the **PURCHASE DATE** indicated in Column I, and payment is not received by the wholesaler on or before the corresponding **DUE DATE** listed in Column II, then the retailer is considered by state regulation to be overdue. Retailers can avoid most problems associated with late mail deliveries by mailing remittances at least five (5) days before the specified **DUE DATES**.

Regulation 03.02.01.04 requires Maryland wholesalers and manufacturers who sell wine and distilled spirits to retailers to (1) report the retailer to the Licensing & Registration Unit for late payment (even if payment was received after the due date) and (2) simultaneously notify the retailer that a report has been submitted to the Licensing & Registration Unit. Reports and notifications must be made for all late payments. The Licensing & Registration Unit will determine whether or not the retailer is placed on the credit control list.

THE THREE-TIER ALCOHOL DISTRIBUTION SYSTEM
WHY IT WORKS

For over 79 years, the beverage alcohol industry has successfully served consumers and communities by distributing wine, spirits and beer through a three-tier system of licensed suppliers, wholesalers and retailers. Every state established this system after the repeal of Prohibition in 1933. Designed to prevent the abuses that led to Prohibition, the three-tier system has created the most innovative, competitive and consumer-friendly system in the world today.

Because of the three-tier system, Americans have access to an astounding variety and selection of products in every category, at reasonable and dependable prices.

The three-tier system is the model of social responsibility. Suppliers, wholesalers and retailers all play a crucial role in providing outstanding choice and availability, while protecting the integrity and quality of alcoholic beverages.

The system creates a framework of regulations, which mandates responsibility and accountability in beverage alcohol distribution.

THE TIERS

1 **SUPPLIERS**
Producers of wine and spirits, such as wineries and distilleries, as well as importers.

2 **DISTRIBUTORS**
Intermediaries that purchase wine and spirits from suppliers to efficiently distribute to retailers.

3 **RETAILERS**
A variety of stores, as well as restaurants, bars, stadiums and hotels, that sell wine and spirits to consumers for consumption.

Consumers benefit from the three-tier system every day through lower prices and greater selection. Boutique distillers and wineries are able to get their products to a wider range of outlets, and small retailers have access to a greater variety of product at lower prices through wholesalers.

BENEFITS OF THREE-TIER REGULATIONS

- Efficiency in collecting taxes
- Preventing the sale of alcohol to minors
- Fostering and overseeing responsible competition
- Creating balance between and within the tiers
- Ensuring public safety
- Preventing the sale of counterfeit and dangerous or deadly products

Disrupting this regulated chain would have disastrous ramifications on public safety and marketplace stability.

Vertical integration would benefit only large-chain businesses. And while it might encourage lower prices on select, mass-marketed items through big-box stores, it will cost the consumer, other players in the market and state governments in the end. Prices will likely increase; retailers will be driven out of business; innovation will decrease; consumer choice will be limited; tax revenues will decline; state regulatory expenses will increase; and jobs will be lost.

BORDER CROSSING

INTERSTATE SHIPPING MATTERS FOR WINE RETAILERS

BY IAN GRIFFITH

Wine stores selling online have had relatively open access to consumers in the major U.S. wine markets, which has been a welcome addition to their local business. While some laws have been in place that should limit these shipments, retailers have been able to find sales in this gray area between the rules and enforcement. However this environment is changing.

Over the past few months both FedEx and UPS have sent "cease and desist" letters to retailers in several states that have shipped alcohol across state lines into New York. The NY State Liquor Authority is putting pressure on the carriers to block out-of-state stores from shipping to NY consumers. While the SLA has no jurisdiction over retailers in other states, they issue permits for the carriers to fulfil wine shipments in NY. Failure by these retailers to halt NY shipments would jeopardize all shipping privileges with the carrier. Meanwhile, retailers in NY enjoy legal intrastate shipping privileges for both wine and spirits.

UPS in particular has begun circulating a strict new retailer wine shipping agreement. Feeling the heat from a related lawsuit where UPS is accused by NY of violating tobacco shipping laws, they have tightened up their policies. An addendum to the agreement outlines details where retailers can ship: Reciprocal states (5), Permit states (8) and the few states where no permits are required (3). It also makes the distinction, for the first time, between direct to consumer shipments by a winery and retailer—a distinction that does not favor retailers.

Wineries have, of course, had their day in front of the Supreme Court and won a major battle with the 2005 Granholm decision. That decision established the principal that out-of-state wineries could not be discriminated against by laws that restricted shipping while in-state wineries were permitted to do that same. The Granholm decision also cast doubt on whether reciprocal shipping laws between states are constitutional.

Legal Road Ahead

Retailers have been trying to establish the basis for a similar decision since it became clear that states were treating them differently from wineries. In recent months, two legal actions could signal a change. The Texas Package Store Association has asked the Supreme Court for a Writ of Certiorari, that retailers should be treated the same as wineries, and not be discriminated against when shipping to consumers from out of state. A separate case in Missouri challenges that state's reciprocal shipping law questioning why a state law can favor retailers from one state but not another.

For a retailer who is concerned about competition from out-of-state stores, it is tempting to encourage your state agency to enforce shipping restrictions in the hopes it will protect your business. The majority of your business may be local, but you are vulnerable to competition from big box and grocery on that front too. Having access to out-of-state wine consumers helps diversify your customer base and strengthen your product selection so you are less dependent on core brands. The consequence of shipping restrictions is the limiting of your own access to consumers in profitable markets as carriers enforce the shipping laws of each state. ■

A winter wonderland shows how when drafting a thematic menu, the drinks are just the start

BY W. R. TISH

Seasons make ideal targets for cocktail menus. This December, the NYLO Hotel on New York's Upper West Side went all in for winter, transforming the lounge bar LOCL into a a Shakespeare-inspired woodland dreamscape, thanks to designer Rebecca Low, lubricated by eight cocktails by Cody Goldstein representing "A Midwinter Night's Dream." This grand collaboration, complemented by a charity element, demonstrates how drink ingredients are just part of a big picture that includes verbiage, décor and presentation.

For any winter-minded cocktail menu, it is both natural and logical to start with sturdy spirits—gin, whiskies, brandies. Goldstein also manages to incorporate coconut rum into the "Partying is Such Sweet Sorrow" shot (counterbalanced by mint liqueur, coffee cream, nutmeg and chocolate). Among the other seasonal ingredients in play: cranberry, pine, smoked clove, cinnamon.

Each of the cocktails has a Shakespearean name and a twist in its presentation—none more dramatic than Puck's Shadow. The inspiration? "I just love s'mores. Period!," states Goldstein. "I also wanted to evoke more than one sense when someone is tasting my cocktail. The smell of roasting marshmallow is an added sensory to the drink. This cocktail is a mix between a really awesome banana bread and campfire s'mores." ■

• Puck's Shadow

Ingredients:
1½ oz of Bourbon
½ oz Giffard Banane du Bresil Liqueur
¼ oz of Rapa Giovanni Walnut
3 dashes Bittermens Xocolatl Mole Bitters
Everclear, bar spoon
Marshmallow, for flaming garnish

Method:
Add all ingredients into a mixing glass and fill to the top with ice. Stir for 7 seconds and strain into a rocks glass filled with ice. Place squeezed lime half on top of rocks and fill with bar spoon of Everclear. Skewer marshmallow and set alongside. The flame burns for roughly about 90 seconds or so. It's just enough time for the guest to toast the perfect golden-brown marshmallow.

How to Figure Gross Profits

Experience has proven that few business people know the difference between MARK-UP and GROSS PROFIT, and thus cannot figure profits properly. Keep the following schedule before you and you will find it worth many dollars in the course of a year.

MARK-UP – is the percentage of the amount you earn on COST.

HOW TO FIGURE IT – A brand costs you $50.00 a case and sells for $75.00 a case, or $25.00 above your cost. Divide the cost ($50.00) in to your earnings ($25.00) and you will get a percentage of 50%...This is your MARK-UP on COST.

GROSS PROFIT – is the percentage of the amount you earn on SELLING PRICE.

HOW TO FIGURE IT – a brand costs you $50.00 a case and sells for $75.00 a case, or $25.00 above your cost. Divide the SELLING PRICE ($75.00) into your earnings ($25.00) and you get a percentage of 33 1/3. This is your Gross Profit on Selling Price. This means that you earn 33 1/3 cents on each $1.00 in sales to apply to your expense of operation, which ultimately will show your net profit.

Mark-Up	Gross Profit
5% added to cost is	4.75% profit on selling price
10% added to cost is	9% profit on selling price
15% added to cost is	13% profit on selling price
20% added to cost is	16.33% profit on selling price
25% added to cost is	20% profit on selling price
30% added to cost is	23% profit on selling price
35% added to cost is	26% profit on selling price
45% added to cost is	31% profit on selling price
50% added to cost is	33.33% profit on selling price
55% added to cost is	35.5% profit on selling price
60% added to cost is	37.5 % profit on selling price
70% added to cost is	41% profit on selling price
80% added to cost is	44.5% profit on selling price
85% added to cost is	46% profit on selling price
90% added to cost is	47.5% profit on selling price
100% added to cost is	50% profit on selling price

Confusing Mark-Up and Gross Profit Can Bankrupt You

MARK-UP/GROSS PROFIT CONVERSION

MARK-UP is the percentage you earn on the COST of an item you sell. **GROSS PROFIT** is the percentage you earn on the SELLING PRICE of the item. Confuse them and you get an over-optimistic view of your business.

When you relate earnings to sales, think only of Gross Profit. In terms of sales, Mark-Up has no meaning. Gross Profit tells you what you earn--retain--on each $1 of sales to pay you business expenses. Anything left over is net profit.

NOTE: Mark-Up percentages below are converted to Gross Profit percentages by rounding to nearest 1/10 of 1%.

MARK-UP – ***How to Compute It:***
A brand costs you $75 a case and brings in $90 - -$15 above cost. Divide your earnings ($15) by your cost ($75) and you get a *mark-up on cost* of 20%.

GROSS PROFIT – ***How to Compute It:***
The same brand costs you $75 and brings in $90-$15 above cost. Divide your earnings ($15) by your *selling price* ($90) and you get a ***gross profit on selling*** of 16.7% -- 16.7 cents on each $1.00 of sales – to pay expenses.

BE PROUD, BUY LOCAL

ASK FOR MARYLAND WINE

MARYLAND WINE IS...

GOOD FOR WINE LOVERS

Maryland's 75 wineries produce superb, handcrafted wines that compete with national brands, while highlighting all the benefits of buying local.

GOOD FOR AGRICULTURE

Maryland wineries support (and grow!) over 700 acres of grapes throughout the state. Grapes are a long-term crop, preserving open space and encouraging land preservation.

GOOD FOR TOURISM

Our industry attracts nearly 400,000 visitors annually to our wineries and wine festivals and events. These visitors spend their dollars at wineries, neighboring restaurants and accommodations.

GOOD FOR MARYLAND

Our wineries provide employment and tax revenue, supporting Maryland's rural economy by creating jobs that create tourism, preserve land and encourage agriculture. Maryland's wineries create $100 million in economic activity annually.

JOIN THE CONVERSATION

Facebook and Twitter @MDwine and be a part of the growth of great local wine industry.

DID YOU KNOW?

Did you know that only 3 out of every 100 bottles of wine sold in the state are bottles of Maryland wine. It's not a lot, but it's growing, and if you buy more local wine, you create more local jobs, grow more vineyards and help preserve our rural economy.

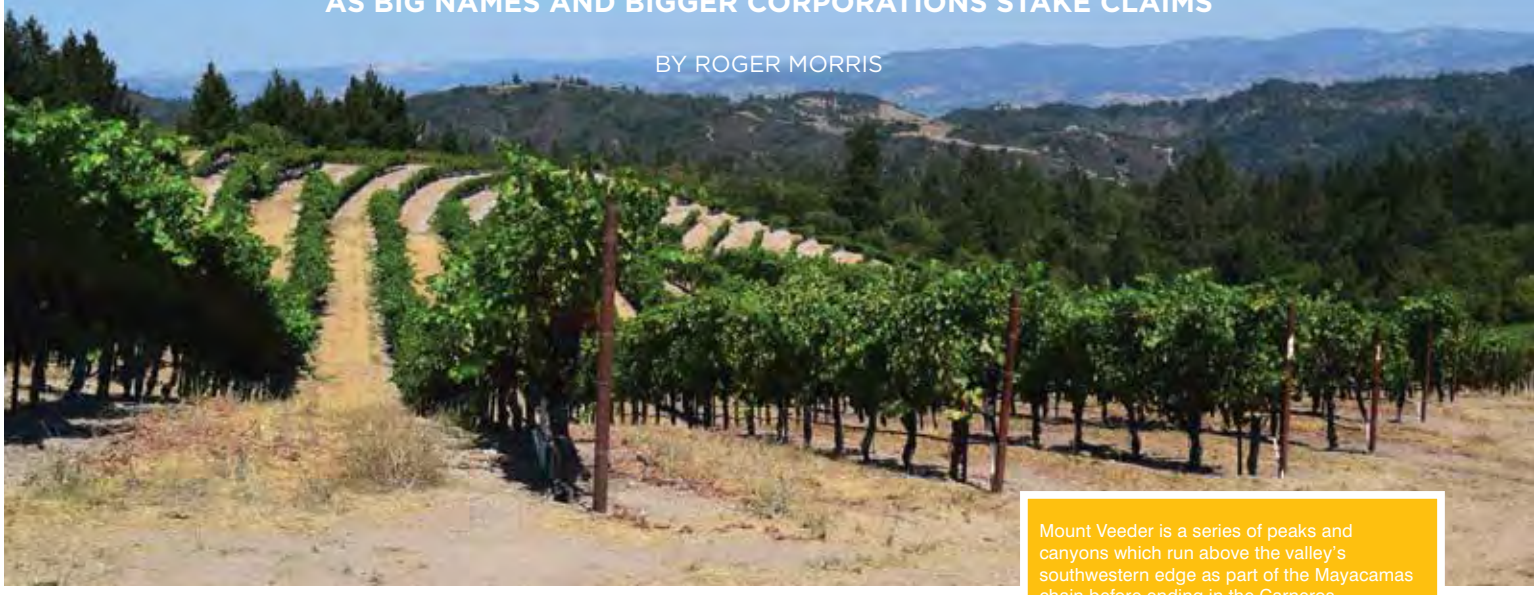
R rising star wine region

MOUNTAIN HIGH

NAPA VALLEY'S MOUNT VEEDER REGION IS BEING REDISCOVERED, AS BIG NAMES AND BIGGER CORPORATIONS STAKE CLAIMS

BY ROGER MORRIS



Mount Veeder is a series of peaks and canyons which run above the valley's southwestern edge as part of the Mayacamas chain before ending in the Carneros. Pictured here: Jackson Family Estates' Lokoya Vineyard.

It is hard to talk about who is making wine on Napa Valley's Mount Veeder without sounding like you are merely name-dropping. To wit: Constellation (Mount Veeder winery), Jackson Family (Lokoya and Mt. Brave), Cuvaison (Brandlin), Hess Collection, Charles Banks (Mayacamas) and eponymous vintners Aaron Pott, Steve Lagier and Carole Meredith. And this fall, at what was the late Robin Williams' Villa Sorriso, the owners of Château Pontet-Canet in Bordeaux enjoyed their first harvest as Tesseron Estate.

There was a time in the 1970s when what is now the Mount Veeder District was the talk of Napa Valley, with the big but silky Cabernet Sauvignons being made there. But the allure of Mount Veeder seemed to fade in ensuing decades, as attention shifted back to cult wines and showplace estates on the valley floor.

Today, there is again genuine excitement about what's happening on this mountain. "It's the last frontier in the valley," says Tom Gamble of Gamble Family Vineyards in Oakville, who sources grapes on the mountain. "It's a great place for cool-weather Cabernets."

It was not until 1993 that official AVA status was granted to this series of peaks and canyons which run above the valley's southwestern edge. According to the Mount Veeder Appellation Council, only about 1,000 of the region's 16,000 acres are planted to vines. More than half are in Cabernet Sauvignon, followed at a distance by Malbec (72 acres), Merlot (39), Syrah (34) and Cabernet Franc

Jay Schuppert, Cuvaison

Cuvaison's Brandlin estate is comprised of 38 acres of vines at around 1,000 feet above sea level, carved into 15 different blocks.

(23) for the top five reds. Chardonnay (76 acres) is the only white variety with a foothold. The highest vineyard is at Mayacamas at 2,400 feet, and the typical slope is 10 to 30 degrees. Primary soil types are rocky clay seabed and lesser amounts of volcanic soils.

"Mount Veeder is probably the least-planted AVA in Napa Valley," says Jay Schuppert, President of Cuvaison. "It contributes less than 2% of Napa Valley's overall production." And those who do farm the steep, elevated terrain do so in patches; Cuvaison's Brandlin estate is comprised of 38 acres of vines at around the 1,000 feet level which are carved into 15 different blocks.

Advantage: Mt. Veeder

Chris Carpenter, who makes both the Mt. Brave and Lokoya brands for Jackson Family at their Oakville winery, says, "Although our vineyards are above the fog line, we still get a lot of heat off the valley floor, with temperatures getting into the 90s. And because of so much light, the grapes get great concentrated flavor accumulation." The Mt. Brave grapes come from the former Chateau Potelle property, adjacent to the Lokoya vineyards. "The soils are shallow here and don't hold a lot of water," Carpenter says.

All the topographic and climatic factors add up to the longest growing season *and* the lowest yields in Napa Valley

Put all the topographic and climatic factors together and they add up to the longest growing season and the lowest yields in Napa Valley. Now, those working the mountain are tinkering with their grape palette and farming methods.

Randle Johnson, winemaker at Hess Collection since 1983 and before that at Mayacamas, thinks the mountain holds great potential for Malbec, "both as a varietal and as part of a Cabernet blend. Based on our experience both here and in Argentina, we've become quite enamored with it and its black-fruit profile."

The newest kids on the mountain—for now—are the Tesserons of Chateau Pontet-Canet, who will retain Robin Williams' "Pym Rae" name for the 26-year-old vineyard. "We are extremely happy here, because we went directly to full dry farming with the 2016 vintage," says Alfred Tesseron, who purchased the property in January 2016. "The vines reacted very well, with the help of *biodynamy* [biodynamics], and we have started the process of certification."

Although mountain animals such as deer feast on grapes in unfenced areas, Carpenter says that Mount Veeder's location doesn't attract much of a bird population during harvest. "Fortunately, birds like Pinot better than Cab," he says. "Thank goodness for the folks down the hill in Carneros!" ■
