**NOTICE TO RETAILERS**

If wine and/or distilled spirits have been delivered to a retail licensee by a wholesaler or manufacturer on or before the **PURCHASE DATE** indicated in Column I, and payment is not received by the wholesaler on or before the corresponding **DUE DATE** listed in Column II, then the retailer is considered by state regulation to be overdue. Retailers can avoid most problems associated with late mail deliveries by mailing remittances at least five (5) days before the specified **DUE DATES**.

Regulation 03.02.01.04 requires Maryland wholesalers and manufacturers who sell wine and distilled spirits to retailers to (1) report the retailer to the Licensing & Registration Unit for late payment (even if payment was received after the due date) and (2) simultaneously notify the retailer that a report has been submitted to the Licensing & Registration Unit. Reports and notifications must be made for all late payments. The Licensing & Registration Unit will determine whether or not the retailer is placed on the credit control list.

Director

## TALKIN TECH

# SETTING THE STAGE

## WINE RETAILERS' AGENDA FOR THE 21<sup>ST</sup> CENTURY

BY IAN GRIFFITH

Many of the laws that govern the retail tier were designed in the wake of Prohibition with the goal of maintaining temperance. Over the past 80 years our attitudes towards alcohol have changed, to say the least. Increasingly, the enforcement of alcoholic beverage law more often concerns discrimination found in the commerce clause.

Amid, the push and pull of competing economic interests. The National Association of Wine Retailers (NAWR) has outlined a legislative agenda for how wine retailers can shape their future.

### Direct Shipping

California wineries were successful in convincing the Supreme Court that states should view the commerce clause as preeminent when it comes to shipments across state lines. That states continue to discriminate against out-of-state retailers is characteristic of the failure by wine stores to organize an effective challenge to state laws. NAWR hopes to become a focus of organized retailer action on this front and is supporting bills in TX, NY and CT that permit shipments from out-of-state retailers.

### Third Party Marketers

Whether the marketer is Amazon, Drizly or any number of consumer apps that seek to connect customers to retailers with wine to sell, they all suffer from the lack of a well-defined regulatory framework. Licensees must control the sale, payment and delivery of alcoholic beverages, but who sets the price of wines and how does a state agency enforce policy on a third party where it has no jurisdiction?

### Primary Source

This mostly concerns the sale of grey market wines beyond the allocation of the local wholesaler. A recent move in NY to limit this provision drew attention to the importance for restaurants to be able to access older vintages and rare wines from secondary sources.

### Supplier Purchasing

This proposal would allow retailers to purchase direct from producers, a privilege that, when available, is often restricted to in-state purchases. Where this happens, discrimination is a concern. This proposal challenges the unique role of wholesalers in this industry.

### Central Warehousing

In states where a retailer may own multiple locations, it is inefficient to require the retailer receive deliveries directly from a wholesaler for each location.

### 30-day Credit Terms

There are still states where retailers are required to pay COD for all their deliveries. Retailers should have access to at least 30 days credit terms.

It is time for wine retailers to take an active part in shaping the marketplace. While there are those who seek protection from competition, the future is more likely to resemble an expanded marketplace as we move toward a single national marketplace for wine sales.

NAWR seeks to have the same principal of non-discrimination applied to retailer sales that the Supreme Court delivered for wineries. ■

# MARYLAND WINE

## MARYLAND WINE IS...

### GOOD FOR WINE LOVERS

Maryland's 75 wineries produce superb, handcrafted wines that compete with national brands, while highlighting all the benefits of buying local.

### GOOD FOR AGRICULTURE

Maryland wineries support (and grow!) over 700 acres of grapes throughout the state. Grapes are a long-term crop, preserving open space and encouraging land preservation.

### GOOD FOR TOURISM

Our industry attracts nearly 400,000 visitors annually to our wineries and wine festivals and events. These visitors spend their dollars at wineries, neighboring restaurants and accommodations.

### GOOD FOR MARYLAND

Our wineries provide employment and tax revenue, supporting Maryland's rural economy by creating jobs that create tourism, preserve land and encourage agriculture. Maryland's wineries create \$100 million in economic activity annually.

### JOIN THE CONVERSATION

Facebook and Twitter @MDwine and be a part of the growth of great local wine industry.

### DID YOU KNOW?

Did you know that only 3 out of every 100 bottles of wine sold in the state are bottles of Maryland wine. It's not a lot, but it's growing, and if you buy more local wine, you create more local jobs, grow more vineyards and help preserve our rural economy.

### JOIN MARYLAND WINE MONTH

We're promoting stores and restaurants that support Maryland wine during Maryland Wine month in March.

# THE THREE-TIER ALCOHOL DISTRIBUTION SYSTEM

## WHY IT WORKS

For over 79 years, the beverage alcohol industry has successfully served consumers and communities by distributing wine, spirits and beer through a three-tier system of licensed suppliers, wholesalers and retailers. Every state established this system after the repeal of Prohibition in 1933. Designed to prevent the abuses that led to Prohibition, the three-tier system has created the most innovative, competitive and consumer-friendly system in the world today.

Because of the three-tier system, Americans have access to an astounding variety and selection of products in every category, at reasonable and dependable prices.

The three-tier system is the model of social responsibility. Suppliers, wholesalers and retailers all play a crucial role in providing outstanding choice and availability, while protecting the integrity and quality of alcoholic beverages.

The system creates a framework of regulations, which mandates responsibility and accountability in beverage alcohol distribution.

Consumers benefit from the three-tier system every day through lower prices and greater selection. Boutique distillers and wineries are able to get their products to a wider range of outlets, and small retailers have access to a greater variety of product at lower prices through wholesalers.

### BENEFITS OF THREE-TIER REGULATIONS

- Efficiency in collecting taxes
- Preventing the sale of alcohol to minors
- Fostering and overseeing responsible competition
- Creating balance between and within the tiers
- Ensuring public safety
- Preventing the sale of counterfeit and dangerous or deadly products

### THE TIERS

1

#### SUPPLIERS

Producers of wine and spirits, such as wineries and distilleries, as well as importers.

2

#### DISTRIBUTORS

Intermediaries that purchase wine and spirits from suppliers to efficiently distribute to retailers.

3

#### RETAILERS

A variety of stores, as well as restaurants, bars, stadiums and hotels, that sell wine and spirits to consumers for consumption.

Disrupting this regulated chain would have disastrous ramifications on public safety and marketplace stability.

Vertical integration would benefit only large-chain businesses. And while it might encourage lower prices on select, mass-marketed items through big-box stores, it will cost the consumer, other players in the market and state governments in the end. Prices will likely increase; retailers will be driven out of business; innovation will decrease; consumer choice will be limited; tax revenues will decline; state regulatory expenses will increase; and jobs will be lost.
