# Some History Behind The Day

## April Fools' Day

April Fools' Day—celebrated on April 1 each year—has been celebrated for several centuries by different cultures, though its exact origins remain a mystery. April Fools' Day traditions include playing hoaxes or practical jokes on others, often yelling "April Fools!" at the end to clue in the subject of the April Fools' Day prank. While its exact history is shrouded in mystery, the embrace of April Fools' Day jokes by the media and major brands has ensured the unofficial holiday's long life.

Some historians speculate that April Fools' Day dates back to 1582, when France switched from the Julian calendar to the Gregorian calendar, as called for by the Council of Trent in 1563. In the Julian Calendar, as in the Hindu calendar, the new year began with the spring equinox around April 1.

People who were slow to get the news or failed to recognize that the start of the new year had moved to January 1 and continued

to celebrate it during the last week of March through April 1 became the butt of jokes and hoaxes and were called "April fools." These pranks included having paper fish placed on their backs and being referred to as "poisson d'avril" (April fish), said to symbolize a young, easily caught fish and a gullible person.

Historians have also linked April Fools' Day to festivals such as Hilaria (Latin for joyful), which was celebrated in ancient Rome at the end of March by followers of the cult of Cybele. It involved people dressing up in disguises and mocking fellow citizens and even magistrates and was said to be inspired by the Egyptian legend of Isis, Osiris and Seth.

There's also speculation that April Fools' Day was tied to the vernal equinox, or first day of spring in the Northern Hemisphere, when Mother Nature fooled people with changing, unpredictable weather.

April Fools' Day spread throughout Britain during the 18th century. In Scotland, the

tradition became a two-day event, starting with "hunting the gowk," in which people were sent on phony errands (gowk is a word for cuckoo bird, a symbol for fool) and followed by Tailie Day, which involved pranks played on people's derrieres, such as pinning fake tails or "kick me" signs on them.

In modern times, people have gone to great lengths to create elaborate April Fools' Day hoaxes. Newspapers, radio and TV stations and websites have participated in the April 1 tradition of reporting outrageous fictional claims that have fooled their audiences.

In 1957, the BBC reported that Swiss farmers were experiencing a record spaghetti crop and showed footage of people harvesting noodles from trees. In 1985, Sports Illustrated writer George Plimpton tricked many readers when he ran a made-up article about a rookie pitcher named Sidd Finch who could throw a fastball over 168 miles per hour.

### 2022 SCHEDULE OF PURCHASE PERIODS & DUE DATES

FIELD ENFORCEMENT DIVISION  
REGULATORY AND LICENSING SECTION  
410-260-7314

#### NOTICE TO RETAILERS

If wine and/or distilled spirits have been delivered to a retail licensee by a wholesaler or manufacturer on or before the **PURCHASE DATE** indicated in Column I, and payment is not received by the wholesaler on or before the corresponding **DUE DATE** listed in Column II, then the retailer is considered by state regulation to be overdue. Retailers can avoid most problems associated with late mail deliveries by mailing remittances at least five (5) days before the specified **DUE DATES**.

Regulation 03.02.01.04 requires Maryland wholesalers and manufacturers who sell wine and distilled spirits to retailers to (1) report the retailer to the Regulatory and Licensing Section for late payment (even if payment was received after the due date) and (2) simultaneously notify the retailer that a report has been submitted to the Regulatory and Licensing Section. Reports and notifications must be made for all late payments. The Regulatory and Licensing Section will determine whether or not the retailer is placed on the credit control list.

## BORDEAUX-INSPIRED

**Roy Estate**, known for its single-vineyard Napa Valley wines, has released its 2019 Mr. Evans Proprietary Red with an extremely limited production of just 695 cases. A blend of 65 percent Cabernet Sauvignon, 24 percent Merlot, and 11 percent Petit Verdot, the wine mixes layers of anise, mace, and licorice. The Mr. Evans label nods to Bordeaux, where winemaker Philippe Melka began his career, as well as the property's 17 acres that mirror the French region's Left and Right Banks.

SRP: \$265 per 750-ml bottle

## YEAR IN REVIEW

**Champagne Henriot's** Millésime 2012 is now available stateside. The vintage Champagne, a blend of 54 percent Chardonnay and 46 percent Pinot Noir, employs grapes solely from Grand Cru and premier cru vineyards located in the Montagne de Reims and Côte des Blancs. Expressing notes of meringue, ripe fruit, and summer currants, it encapsulates 19th-century founder Apolline Henriot's reverence for nature.

SRP: \$115 per 750-ml bottle

## WHITE LIGHT

**The Critic** Cabernet Sauvignon, a blend of 90 percent Napa Valley-grown Cabernet Sauvignon and 10 percent Merlot, was such a hit that Opici Wines & Spirits has now ventured into the realm of white wine with The Critic Chardonnay. Rife with notes of green apple and apricot, it was aged in oak for a minimum of six months.

SRP: \$19.99 per 750-ml bottle

## WORTH THE WAIT

After spending nearly 12 years maturing in the cellar, **Dom Pérignon's** 2008 rosé is ready for shelves. Combining Pinot Noir grapes from the Chants de Linottes parcels in Hautvillers and the Vauzelles parcels in Ay, the silky Champagne is defined by a bouquet of raspberries and wild strawberries that ultimately leads to a white pepper and peony finish.

SRP: \$329 per 750-ml bottle

## CALIFORNIA EXPANSION

The Prisoner Wine Company's luxury **Saldo** portfolio, which includes a Zinfandel and a 2019 red blend, now features a 2019 Chenin Blanc, the No. 39007. Tasting of Golden Delicious apple, pineapple, and cantaloupe, it illuminates grapes that are sourced from Mendocino's Norgard Vineyard, bolstered by a hint of Viognier from Rodgers Vineyard in Napa Valley's Oak Knoll region.

SRP: \$37 per 750-ml bottle

# MARYLAND WINE

## MARYLAND WINE IS...

### GOOD FOR WINE LOVERS

Maryland's 85 wineries produce superb, handcrafted wines that compete with national brands, while highlighting all the benefits of buying local.

### GOOD FOR AGRICULTURE

Maryland wineries support (and grow!) over 800 acres of grapes throughout the state. Grapes are a long-term crop, preserving open space and encouraging land preservation.

### GOOD FOR TOURISM

Our industry attracts nearly 400,000 visitors annually to our wineries and wine festivals and events. These visitors spend their dollars at wineries, neighboring restaurants and accommodations.

### GOOD FOR MARYLAND

Our wineries provide employment and tax revenue, supporting Maryland's rural economy by creating jobs that create tourism, preserve land and encourage agriculture. Maryland's wineries create 100 million in economic activity annually.

### JOIN THE CONVERSATION

Facebook and Twitter @MDwine and be a part of the growth of great local wine industry.

### DID YOU KNOW?

Did you know that only 3 out of every 100 bottles of wine sold in the state are bottles of Maryland wine. It's not a lot, but it's growing, and if you buy more local wine, you create more local jobs, grow more vineyards and help preserve our rural economy.

### JOIN MARYLAND WINE MONTH

We're promoting stores and restaurants that support Maryland wine during Maryland Wine month in March.

# Confusing Mark-Up and Gross Profit Can Bankrupt You

## MARK-UP/GROSS PROFIT CONVERSION

**MARK-UP** is the percentage you earn on the **COST** of an item you sell. **GROSS PROFIT** is the percentage you earn on the **SELLING PRICE** of the item. Confuse them and you get an over-optimistic view of your business.

When you relate earnings to sales, think only of Gross Profit. In terms of sales, Mark-Up has no meaning. Gross Profit tells you what you earn--retain--on each \$1 of sales to pay you business expenses. Anything left over is net profit.

NOTE: Mark-Up percentages below are converted to Gross Profit percentages by rounding to nearest 1/10 of 1%.

### **MARK-UP – How to Compute It:**

A brand costs you \$75 a case and brings in \$90 - -\$15 above cost. Divide your earnings (\$15) by your cost (\$75) and you get a *mark-up on cost* of 20%.

### **GROSS PROFIT – How to Compute It:**

The same brand costs you \$75 and brings in \$90-\$15 above cost. Divide your earnings (\$15) by your *selling price* (\$90) and you get a **gross profit on selling** of 16.7% -- 16.7 cents on each \$1.00 of sales – to pay expenses.
